# We Own & Maintain, You Service & Drive.

Sometimes known as a Non-Maintained Operating Lease, we own & manage the vehicle, you service & drive.

## The key benefits of this solution:

This option excludes the provision of a service maintenance plan and tyre allocation. However, the Yoogo Fleet advantage means that when your vehicle is due for a service or new tyres, our fleet experts arrange the booking. We receive national discounts from our preferred suppliers which we pass on to you via your monthly invoice.

- ▶ **No upfront costs.** We purchase the vehicle of your choice using our national procurement benefits (reducing your lease costs).
- ▶ **Complete fleet management.** Our industry-leading fleet management services and telematics are included in your lease.
- ▶ We'll manage all your servicing and tyre requirements at discounted rates and recharge this back to you on one simple invoice.
- ▶ Next level Fleet Management, we connect your fleet and we'll manage all your service bookings, buy your road user charges, tyres, sort you windscreen repairs or replacements, supply you with our free fuel cards (with discounts) manage your accidents from incident to back on the road, we're here to help 24/7 with one simple call to 0800 XXXXXX

- ▶ **Simply return the vehicle at the end of the lease** with no worries about its future value or having the hassle of selling it. Love your lease vehicle and want to own it at the end – we can help with that.
- ▶ **Worried about refurbishment charges?** no worries Yoogo Fleet doesn't charge for any fair wear and tear and will discount any chargeable items at 30% over our competitors.
- ▶ **Worried about health and safety requirements of your drivers and fleet?** Do you know and understand the latest legislation and the effect this has on your Directors and Managers? Our Managed Operating Leases come with Yoogo Telematics and we'll help you navigate and assist in getting set up.
- ▶ **Looking for sustainable options.** If your future is Green or you are looking to reduce your carbon footprint and are wondering how to transition some or all of your fleet to EVs or other Green Fleet options with guidance and modelling then Yoogo's fleet experts are good to go on all the options.
